Care & Maintenance

Preserve the beauty of your door's finish.

How do I clean the door?

Use a soft towel, warm water and mild soap.

How do I repair a scratch?

For minor scrapes and scratches, your dealer may offer a touch-up kit designed to coordinate with the finish color.

How often do I need to reapply topcoat?

Every 3–5 years once you see a decrease in gloss, apply a high-quality, low-gloss exterior-grade urethane clear coat without ethylbenzene to the surface.

Express your unique style.

Handcrafted and perfected by professionals, a PrismaGuard finish is built to last, just like the Therma-Tru doors it was designed for.

PrismaGuard™ Stain

Brings the authentic look of wood to life with rich tones that add dimension to enhance wood grain doors.

- 1 It starts with the realistic wood grains and deep embossments of a Therma-Tru door.
- 2 A base coat provides an even, consistent color across the surface of the door.
- 3 A wiping stain enhances the base coat to reflect the natural beauty of wood.
- 4 A durable, low-maintenance coating protects against scratches and color fading.
